CONSUMPTION.

IMPORTANT TO THE PUBLIC AS WELL AS THE MEDICAL PROFESSION .- Hall's Jour nal of Health, referring to Consumption. makes the following important statement: "Consumption usually begins with slight, dry cough in the morning, then, on

going to bed, getting more and more fre quent, with more and more phlegm, increasing debility, thinness of flesh, shortness of breath, and quickness of pulse. In fatal cases its average course is about two years; hence the importance of arresting the disease at as early a stage as possible, and the sooner rational means are employed for this purpose the greater the chance of success. The disease is owing to an irritation commenaing in the throat and extending to the specific for Hysteria, Dizziness, Convulsions, Nerlungs, so that their action is interfered with, and the blood does not receive sufficient oxy- or over-indulgence, which leads to misery, decay, gen to purify it. tence, and the rapid and permanent growth it has made is something unprecedented in the history of carriage building. Its permanancy and growth have been accomplished, not by any special effort at "drum-ming" the trade, but by the excellency of the work produced, and by the low price at which this work has been sold. Another great feature of its success is in the STYLE of the work produced. It is too often the case that in low priced work the style is correspondingly low or common in appearance. But all goods manufactured by T. T. Haydock, are made in a stylish and artistic manner, thus adding beauty to quality. This firm does not build the lowest grade, nor the lowest priced work in the market by any means, but is making a specialty of a medium grade full leather top buggy at a very low price for the quality; and is offering special inducements to the trade to buy in large quantities.
